LOGO DON'TS

When using the logo, it's important to note a few "don'ts."

Only use the logo in the brand colors. Also, note that any variation of the logo on page 4 can be used in Black/White or AADerm Blue. The hex codes, RBG, and CYMK's are listed on page 11. Below are examples of what not to do.

Position and font also play an important role in the brand. The logo should always remain in the same position. Below are example of what not to do.

Lastly, the font should remain the same. The appropriate fonts to use are listed on pages 6-7.

THE AFFILIATES LOGO

Anne Arundel DERMATOLOGY *and Affiliate Practices*

Anne Arundel DERMATOLOGY *and Affiliate Practices*

Whenever Anne Arundel Dermatology purchases a dermatology practice, that practice becomes "An Affiliate of Anne Arundel Dermatology." As a marketing team, we have many global promotions and campaigns throughout the year. The affiliate practice will always maintain their designated brand logo for all collateral (business cards, letterheads, envelopes, office-specific cosmetic promotions, website, etc.), except when the promotion or campaign is global (across all AAD) or a separate marketing initiative. This is when we will use the logo seen above.

Additionally, whenever Anne Arundel Dermatology buys a practice, their logo will add "An Affiliate of Anne Arundel Dermatology" in Montserrat Italic or Regular Font. See below for an example.
